OBJECTIVE

Passionate MERN Stack Developer with strong proficiency in JavaScript, React.js, Node.js, Express.js, and MongoDB. Eager to leverage my problem-solving skills and technical knowledge to build scalable, high-performance web applications.

EDUCATION

Bachelor of technology in computer science,, Technocrates Institute of Technology, Bhopal   Ongoing
BTech (CSE), 7.6 CGPA

TECHNICAL SKILLS

Language	C++ , JavaScrip
Front-End	HTML, CSS, JavaScript, React.js, Redux Toolkit, Bootstrap
Back-End	Express, Node.js
Database	MongoDB , SQL
Developer Tools	Github , Visual Studio , Figma , Jira
Methodologies	Agile, Scrum

INTERNSHIP

Full-Stack Developer   Mar 2025 - Aug 2025
Cybrom Technology Pvt. Ltd.

- Developed real-time MERN dashboard with Socket.io, enabling live updates and increasing user engagement by 40 percentage.
- Developed RESTful APIs using Express.js and integrated them with a React front-end and third-party services.
- Managed tasks using Jira in an Agile/Scrum workflow to ensure timely delivery.

PROJECTS

WORKER-FINDER Website :

- Built a scalable web application using MongoDB, Express.js, and Node.js featuring dual user roles (workers and clients) with role-based dashboards and permissions.
- Implemented OTP verification via SMS/email during user registration and login, enhancing security and reducing fake accounts
- Designed an intuitive UI/UX with filters for users to search, sort, and connect with workers by profession, location, and ratings.

WONDERLUST :

- Built a responsive design for a seamless experience across mobile, tablet, and desktop.
- Developed the backend with Node.js and Express to handle user data, enabling users to save and manage their favorite destinations and trips.
- I used map API to display interactive maps and travel routes
