

Adarsh Pandey

Date of birth: 13/05/2005 | Nationality: Indian | Phone: (+91) 8090587220 (Mobile) | Email address: pandeyadarsh9628@gmail.com | Website: <https://portfolio-react-gold-seven.vercel.app/> | LinkedIn: [adarshpandey80](#) | GitHub: [Adarshpandey80](#) | Address: Bhopal, Madhya Pradesh, 462022, Bhopal, India (Work)

About me

Computer Science Engineering student with experience in Full-Stack Web Development, Artificial Intelligence applications, and cloud technologies. Skilled in React.js, Node.js, Express.js, MongoDB, and modern software development practices. Passionate about building scalable applications, solving real-world problems, and pursuing advanced studies in Computer Science and Artificial Intelligence.

Education & Training

Bachelor of Technology (B.Tech) in Computer Science Engineering | Technocrates Institute of Technology | 19/09/2023 - Current | Bhopal, India

- Data Structures and Algorithms
- Database Management Systems
- Operating Systems
- Computer Networks
- Object-Oriented Programming
- Software Engineering
- Web Development
- Artificial Intelligence Fundamentals
- Problem Solving and Programming
- Full-Stack Application Development

Level in EQF: 6

Work experience

Full-Stack Development Intern | Cybrom Technology Pvt. Ltd. | 22/03/2025 - 30/12/2025 | Bhopal, India

- Worked on frontend and backend web development projects using modern technologies
- Developed responsive and user-friendly interfaces using React.js, HTML, CSS, and JavaScript
- Built and integrated REST APIs using Node.js and Express.js
- Worked with MongoDB database integration and data management
- Used Git and GitHub for version control, code management, and collaborative development
- Participated in debugging, testing, and performance optimization of applications
- Collaborated with team members on software development tasks and project implementation
- Gained practical experience in full-stack application development and problem-solving

Full-Stack AI Developer | Independent AI Development Project | 20/01/2026 - 13/03/2026 | Bhopal, India

- Developed UniGen-AI, a full-stack LLM-powered content generation platform using modern AI.
- MERN Stack (React.js, Node.js, Express.js, MongoDB) Development
- Large Language Model (LLM) Integration and Prompt Engineering
- LangChain Workflow Orchestration and AI Pipeline Management
- Hugging Face APIs and Generative AI API Integration
- AI-Powered Text and Image Generation Features
- Currently expanding the platform to support AI-based video generation and advanced multimodal capabilities
- Used Git and GitHub for version control.

Founder & Full-Stack Developer | EasyService Startup Project | 12/12/2025 - Current | Bhopal, India

- Developed a service-based full-stack web platform using MERN stack technologies
- MERN Stack (React.js, Node.js, Express.js, MongoDB) Full-Stack Development
- Role-Based Access Control (Admin, Service Provider, User) and JWT Authentication
- REST API Development and Scalable Backend Architecture
- Real-Time Service Management and User Interaction Features
- AI-Powered Recommendation System for Alternative Solutions and Temporary Fixes
- Git, GitHub, Database Management, and Responsive UI/UX Design

Link: <https://github.com/Adarshpandey80/Easy-Service>

Full-Stack Developer | Independent Academic Project | 06/03/2026 - Current | Bhopal, India

- Developed a real-time partner-finding and communication platform using MERN Stack (React.js, Node.js, Express.js, MongoDB) Full-Stack Development.
- WT Authentication, Protected Routes, and Secure REST API Integration
- Socket.io-Based Real-Time Messaging and Live Communication Features
- User Profile Management and MongoDB Database Operations
- Scalable Frontend Architecture and Responsive UI/UX Design
- Git, GitHub, Performance Optimization, and Backend System Development

Link: <https://github.com/Adarshpandey80/Companion-Connect>

MERN Stack Developer | Independent Academic Project | 30/03/2025 - 20/11/2025 | Bhopal, India

- Developed ShoeVerse, a full-stack MERN(React.js, Node.js, Express.js, MongoDB) e-commerce platform.
- Implemented role-based access control for SuperAdmin, Seller, and User roles with secure authorization workflows
- Built secure JWT-based authentication and protected REST APIs for user management and application security
- Razorpay Payment Gateway Integration and Secure Transaction Processing
- Product Management, Inventory Tracking, and Seller Dashboard Features
- Redux Toolkit State Management and Responsive UI/UX Design
- Used Git and GitHub for version control, collaborative development, and project management
